Acknowledgements

1. The amendment filed 09-10-2004 has been entered.

Oath/Declaration

2. The reissue oath/declaration filed with this application is defective due to the following:

The declaration error is not recited well enough since it is not clear what the error is in the patent claims. Specifically, it needs to be clearly set forth what claim language and elements are unnecessary to practice the invention and which were irrelevant to allowance of the resulting patent as set forth in paragraph 5 of the declaration dated 04-30-2001 and which will be eliminated or modified in the new claims to correct this error. See Section 1414 of the MPEP.

Accordingly, claims 1-13 and 16-53 are rejected as being based upon a defective reissue declaration. See 37 CFR 1.175 and paragraph 1414 of the MPEP.

3. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claim Rejections - 35 USC § 251

4. Claims 13 and 16-53 are rejected under 35 USC 251 as being an improper recapture of broadened claimed subject matter surrendered in the application for the

Art Unit: 3618

patent upon which the present reissue is based. See the 3rd and 4th paragraphs of 35 USC 251 and Section 1401 of the MPEP.

Note that an Amendment dated 3-19-1997 and an Examiner's Amendment dated 03-31-1998 in patent application 08/682,808, that was agreed to by applicant's representative, Jonathan A. Barney, that added the following limitations to claim 1 to overcome the prior art:

A) "integrally formed roller skate chassis"

B) "laterally spaced longitudinal members"

C) "generally planar upper portions with upper edges integrally attached... said heel and forefoot attachment members"

D) "one of said upper portions... being substantially coplanar with a respective lower portion"

E) "and integrally attached to said longitudinal members where said upper and lower portions intersect"

Note that the above Amendment also added the following limitations to claim 5:

A) "An integrally formed roller skate chassis"

B) "laterally spaced longitudinal members having upper edges integrally attached to said heel and forefoot members... longitudinal members having upper and lower generally planar portions"

C) "and attached thereto"

D) "convergent planes in an upwardly extending direction"

All these above limitations need to be present in the new claims (13 and 16-53). In many cases, they are not. Note, in particular, that the limitation, integrally formed roller skate chassis" is not present any of the new claims.

Examiner's Comments

5. Upon further review, the above additional defects in the application were noted by the PTO. It is regretted that these "defects" were not set forth earlier in prosecution of the application. Accordingly, this action is made non-final.

NEW CENTRAL FAX NUMBER

Effective July 15, 2005

On July 15, 2005, the Central FAX Number will change to **571-273-8300**. This new Central FAX Number is the result of relocating the Central FAX server to the Office's Alexandria, Virginia campus.

Most facsimile-transmitted patent application related correspondence is required to be sent to the Central FAX Number. To give customers time to adjust to the new Central FAX Number, faxes sent to the old number (703-872-9306) will be routed to the new number until September 15, 2005. After September 15, 2005, the old number will no longer be in service and **571-273-8300** will be the only facsimile number recognized for “centralized delivery”.

CENTRALIZED DELIVERY POLICY: For patent related correspondence, hand carry deliveries must be made to the Customer Service Window (now located at the Randolph Building, 401 Dulany Street, Alexandria, VA 22314), and facsimile transmissions must be sent to the Central FAX number, unless an exception applies. For example, if the examiner has rejected claims in a regular U.S. patent application, and the reply to the examiner’s Office action is desired to be transmitted by facsimile rather than mailed, the reply must be sent to the Central FAX Number.
